VISION BENEFITS
FOR EVERY SET
OF EYES

Where do you

My eyesight needs help

With an EyeMed membership, you have the power to get exactly what you want – without settling for less.

VALUE

want to start?

My eyes are just fine

Think you don't need vision care? Think again. Some health problems may show signs through your eyes – signs you don't want to miss.

WELLNESS

76%

Members save an average
of 76% off retail on
eyeglasses with an eye
exam¹

VALUE

The life of an EyeMed member is a life of convenience, comfort and savings.

See who you want, when you want

You have access to thousands of in-network providers— independent eye doctors, your favorite retail stores, even online options. There's a perfect one for every person; find yours with the Enhanced Provider Search on eyemed.com.

Shop with freedom

Choose from any frame or brand, with no limiting frame towers. From image-conscious to budget-conscious, you have the freedom to find the right fit. Because life is too short to settle.

Enjoy savings that add up

Members save an average of 76% off retail on eyeglasses with an eye exam.¹ Plus, you'll see additional offers on eyewear and eye care – like 40% off a complete additional pair of glasses.*

Get help from the vision experts

Our support tools make benefits easy to understand and easy to use. See the latest in vision in our e-newsletter. Stay mobile with the EyeMed Members App and text alerts. And enjoy our award-winning wellness website (eyesiteonwellness.com).

WELLNESS

Your eyes are windows to your soul.
They're also portals to your health.

Spot health problems sooner

An eye exam can spot early signs of diabetes, high blood pressure, high cholesterol and heart disease.² Not to mention cataracts and glaucoma. See it sooner. Treat it sooner.

Don't live with eye strain

Every day, we spend hours staring at phones, laptops and tablets. In fact, the average American spends over 7 hours looking at a screen each day.³ All this exposure can put strain on our eyes and may be linked to blurred vision, dry eye and headaches.

Avoid vision creep

Your eyes are always changing (you probably don't even notice it). Our network doctors can track even the slightest changes with the latest in digital exam technology and retinal imaging. Designed for your comfort. Fine-tuned for precision.

Soak up the sun – safely

UV rays can cause cataracts, macular degeneration, vision loss and eye sunburn. Even in winter. Sunglasses can be helpful tools for protecting your eyes from these potentially harmful rays.⁴ Thankfully, EyeMed benefits include discounts on non-prescription sunglasses.
